SCANGRIP®

Reinventing the future of LED work lights

SCANGRIP is taking an ambitious strategic step forward by committing to develop LED work lights with minimized environmental impact while at the same time improving energy efficiency and expanding the lifespan.

13 of our premium, top-selling LED work lights are being reintroduced.

Keep the light you love.

for **LIFE**

Setting new standards

- Commitment to creating premium, innovative LED work lights.
- Focus on prolonging the products' lifespan as the most effective approach to reducing environmental impact.
- Creating work lights of tomorrow with a brand-new perspective, rooted in technical specialist know-how and extensive experience.

Keep the light you love.

for **LIFE**

FOR LIFE

The FOR LIFE concept represents a pioneering approach that focuses on reinventing the design and functionality of LED work lights and optimize energy efficiency to the utmost.

The key features that make these new LED work lights stand out:

- Lifespan more than doubled
- Highest energy efficiency
- Maximized performance

Keep the light you love.

for **LIFE**

for LIFE

Lifespan more than doubled

The most effective way to reduce environmental impact is to prolong a product's lifespan as much as possible. In comparison with the current lifetime of estimated 4 years, we have succeeded in extending the lifespan of the FOR LIFE products to 10 years, which results in a significant reduction of the overall environmental footprint.

- 10-year design life
- Battery recharging lifespan doubled to 1000 cycles
- Advanced battery temperature surveillance system
- Improved electronic design for power supply
- Refined electronic design for charging circuit

Spare parts available

Opting for spare part replacements prolongs product lifespan, reduces waste, and supports sustainability efforts.

Keep the light you love.

Product description

Specifications as presented in pricelist/brochure

NOVA 4 C+R

Durable 4000 lumen rechargeable work light

ORIGINAL SCANGRIP
SINCE 1959
BY DESIGN
PRESENT PENDING

NOVA 4 C+R is an all-round LED floodlight designed for professionals.

The DUAL SYSTEM makes it possible to use the work light with 5 m rubber power cable or without the cable, providing higher flexibility on the work site. It only takes a second to connect the power cable – or disconnect when a cordless work light is needed.

Designed to perform consistently in tough work environments, NOVA 4 C+R is extremely durable and resistant to water and dust (IP67). Equipped with an integrated carrying handle and flexible bracket for easy transportation and mounting on a SCANGRIP TRIPPOD, the NOVA 4 C+R work light is versatile and suited for various working environments. For those seeking diffused light, a diffuser can be acquired as an add-on. SCANGRIP provides a wide range of accessories to increase the functionality of the work light for all types of working situations.

OPTI Light
constant

Powered by a high efficiency multi-LED design of 90 LEDs, NOVA 4 C+R provides up to 4000 lumens. Along with the option to adjust the light output in five different levels, the handlamp also includes separate indicators for runtime and battery life, allowing you to easily track the operating time and remaining battery power. The OPTI Light setting delivers the required illuminance (LUX) in a typical work situation, ensuring optimized light and runtime with a simple touch. This work light provides a constant lumen output performance measured according to the European standard EN 13032-1.

DUAL 2 in 1 SYSTEM
